PROFESSIONAL SUMMARY

As a Software Engineer, I focus on creating user-centric web applications. I specialize in using Next.js and Tailwind CSS to deliver responsive and visually appealing websites. My previous experience in IT operations at King Khaled Hospital allowed me to strengthen my problem-solving abilities and technical adaptability. Additionally, I have earned certifications through initiatives like NASA's Space Apps Challenge and SDAIA's hackathon, which have fueled my commitment to continuous learning and applying the latest technologies in software development.

EXPERIANCE

Software developer at Jodayn , Saudi Arabia, Hail **Mar 2025-Present**

Frontend developer Internship at Jodayn, Saudi Arabia, Hail **OCT 2024-Mar2025**

- Built modern, responsive web pages with **Next.js** and **Tailwind CSS**.
- Partnered with designers to deliver pixel-perfect layouts.

COOP IT support at King Khaled Hospital , Saudi Arabia, Hail **JUN 2024-DEC2024**

- Provided frontline IT support to hospital staff, resolving hardware, software, and network issues.
- Installed, configured, and maintained **medical software** and IT systems.
- Created and managed **Active Directory** domains for hospital IT infrastructure.

PARTICIPATION AND COURSES:

- Getting Started with Git and GitHub from IBM

- Foundations of Software Testing and Validation from University of Leeds
