PROFESSIONAL SUMMARY

Software Engineer focused on building user-centric web applications using Next.js and Tailwind CSS. Experienced in responsive UI development, backend integration with ASP.NET Core APIs, and cross-team collaboration. Continuous learner with hands-on project and hackathon experience.

EXPERIANCE

Software Developer – Jodayn

Hail, Saudi Arabia | Mar 2025 – Present

- Worked on database design, including creating system tables and ERD diagrams to support scalable and efficient architectures.
- Developed backend services using ASP.NET Core Web API and tested endpoints using Postman to ensure reliable data exchange.
- Participated in project requirement meetings and reviewed SRS documentation.
- Created use case and activity diagrams to support system analysis and design.

Frontend Developer Intern – Jodayn

Hail, Saudi Arabia | Oct 2024 – Mar 2025

- Built modern, responsive web pages using Next.js and Tailwind CSS.
- Partnered closely with UI/UX designers to deliver pixel-perfect layouts.

COOP IT Support – King Khaled Hospital

Hail, Saudi Arabia | Jun 2024 – Dec 2024

- Provided frontline IT support to hospital staff, resolving hardware, software, and network issues.
- Installed, configured, and maintained medical software and IT systems.
- Created and managed Active Directory domains for hospital IT infrastructure.

PARTICIPATION AND COURSES:

- Getting Started with Git and GitHub from IBM
- Foundations of Software Testing and Validation from University of Leeds
- SADAIA Hackathon
- Nasa Space Apps Challenge hackathon

HARD SKILLS

Frontend:
