PROFESSIONAL SUMMARY

Results-driven Software Engineer with experience shipping production features across 10+ screens in Agile/Scrum teams. Proficient in Next.js, React, TypeScript, and ASP.NET Core ,from database design to pixel perfect UI. Proven ability to independently architect and deploy full-stack applications used by real users, while collaborating effectively within cross-functional sprint teams.

TECHNICAL SKILLS

Frontend: Next.js · React.js · TypeScript · JavaScript · Tailwind CSS · Bootstrap · HTML · CSS

Backend: ASP.NET Core Web API · ASP.NET Core MVC · C# · Python · Java · SQL · SQL Server

Agile & Tools: Scrum · Sprint Planning · Jira · Azure DevOps · Git · GitHub · Postman

Familiar: Strapi · Oracle · Flutter · Dart

WORK EXPERIENCE

Software Developer · Jodayn · Hail, SA *Mar 2025 – Present*

- Delivered 10+ responsive UI screens across multiple sprints using Tailwind CSS and Bootstrap, collaborating within Agile/Scrum team with daily stand-ups and Azure DevOps sprint tracking.
- Designed and implemented database schemas and ERD diagrams that reduced structural rework during sprint reviews; authored use case and activity diagrams adopted into the project's SRS documentation.
- Identified and resolved several critical bugs during QA cycles before production release, improving release stability and reducing post-deployment defect rate.
- Integrated and validated ASP.NET Core Web API endpoints using Postman, ensuring consistent and reliable data exchange between frontend and backend services.

Frontend Developer Intern · Jodayn · Hail, SA *Oct 2024 – Mar 2025*

- Built most of the responsive web pages using Next.js and Tailwind CSS, delivering pixel-perfect layouts in collaboration with UI/UX designers within an Agile team structure.

IT Support Co-op · King Khaled Hospital · Hail, SA *Jun – Dec 2024*

- Managed Active Directory infrastructure and resolved hardware, software, and network issues across hospital departments, maintaining critical system uptime.

PROJECTS

QAFlow *qa-flow-eight.vercel.app* — Solo-built full-stack QA platform (Next.js, TypeScript, Tailwind,.Net) adopted by real testers. Features intelligent duplicate detection via Fuse.js and live KPI dashboards — replacing manual bug tracking workflows.

Portfolio *my-portfolio-nine-ruddy-49.vercel.app* — Personal site built with React and Firebase, deployed on Vercel — showcasing live projects, skills, and contact.

EDUCATION

B.Sc. Computer Science – Software Engineering *GPA: 3.24 · Dec 2024*

University of Hail, Saudi Arabia

CERTIFICATIONS & ACTIVITIES

IBM Git & GitHub · Software Testing – University of Leeds · SADAIA Hackathon · NASA Space Apps Challenge
